

Richmond Equity Management Ltd. is an employee-owned, Alberta-based investment management firm with a proven track record in selecting quality, dividend paying equities. We apply a consistent investment approach, focusing on equities that generate steady long-term earnings and dividend growth while avoiding resource and commodity price exposure. Our unconstrained, bottom-up mandate allows us to deviate from any index and invest across sectors, geography, and market capitalization. We have limited the size of our asset and client base to ensure a direct client relationship with a portfolio manager and to provide personalized service while maximizing our investment choices and total return potential.

Investment Style

- Concentrated, diversified portfolio of US dividend-paying companies expected to increase their dividends over time.
- Bottom up analysis with no sector weight requirements, not managed to mimic or approximate any index.
- A focus on companies with consistent free cash flows, high returns on capital, conservative balance sheets and the ability to buyback shares after investing in their businesses.
- Positions are approximately equal weighted.
